PROFESSIONAL SUMMARY

UI/UX Designer with over one year of commercial experience delivering research-led, user-centred digital products in e-commerce environments. Recently completed an MSc in User Experience Design, with a focus on AI-assisted retail systems and healthcare applications. Skilled in qualitative and quantitative research, usability testing, journey mapping, and scalable design systems that improve customer experience and operational efficiency. Seeking a Graduate or Junior UI/UX Designer role in the United Kingdom.

PROFESSIONAL EXPERIENCE

Rapshift Pvt. Ltd | April 2023 - February 2024

- Led qualitative and quantitative user research with 50+ customers, including stakeholder interviews and survey-based analysis, identifying friction points across product discovery and checkout journeys.
- Developed data-informed user personas to guide interaction design decisions and prioritise feature enhancements.
- Redesigned mobile navigation, user flows, and end-to-end journey mapping for a platform with 50,000+ monthly active users, improving task efficiency and contributing to a 4.6/5 app rating.
- Conducted 8 rounds of moderated usability testing with 80+ participants, translating insights into iterative interface improvements that increased user satisfaction.
- Developed and implemented a reusable design system of 45+ components adopted by a 6-person development team, improving consistency and accelerating delivery timelines.
- Conducted accessibility reviews aligned with WCAG standards to strengthen inclusive design compliance
- worked within cross-functional agile teams alongside product manager and engineers, contributing to sprint planning, design reviews, and iterative delivery cycles.

UI/UX DESIGN INTERN

Rapshift Pvt. Ltd | January 2023 - March 2024

- Produced high-fidelity wireframes, prototypes, and user flows within agile sprint cycles.
- Supported A/B testing initiatives to optimise product listing and checkout experiences, contributing to measurable engagement improvements.
- Assisted in defining mobile-first design guidelines adopted across multiple product lines.

EDUCATION

MSc User Experience Design

Birmingham City University | 2026

Final Year Project:

How can AI assistants improve stock management and reduce waste in local stores?

- Designed and prototyped a high-fidelity AI-assisted mobile stock management tool in Figma, supporting expiry handling, inventory updates, and AI-driven daily task prioritisation.
- Conducted sequential mixed-methods research, including 4 semi-structured interviews with grocery retailers and task-based usability testing with 10 participants.
- Analysed usability, usefulness, confidence, and trust using Likert-scale measures and IBM SPSS (descriptive statistics), integrating quantitative findings with thematic qualitative analysis.

AWARDS & RECOGNITION

1st Place - Innovation Fest 2025 (Poster Competition)

Birmingham City University

- Co-designed Nextstep, a health application supporting outpatients through their recovery journey.
- Conducted user interviews, persona development, and usability testing to address post-discharge communication challenges.
- Presented research findings and prototype at Innovation Fest and awarded 1st place for research depth and human-centred design execution.

BSc Multimedia & Animation

Loyola Academy, Hyderabad | 2023 | 9.26 CGPA

Final Project: Inside AI – Explored the impact of artificial intelligence on UX workflows, focusing on AI-assisted prototyping and ethical human-centred design principles.

TECHNICAL SKILLS

Design & Research:

User Research, Qualitative Research, Quantitative Research, Persona Development, Journey mapping User Flows, Usability Testing, Information Architecture, Interaction Design, Design Systems, Accessibility (WCAG)

Tools:

Figma (Advanced), FigJam, Miro, Framer, Lovable AI, illustrator, Jira

Methodologies:

Agile, Scrum, A/B Testing, Responsive Design, Service Design, Human-Centred Design
